Informatics Skills

<i>Programming Languages</i>	Proficient: { C#, Java }, Familiar: { C++, C, VB.Net }
<i>Web</i>	HTML5, CSS3, JavaScript, JQuery, Ajax
<i>Frameworks</i>	.Net 4.5, Entity Framework, LINQ, Twitter Bootstrap, Angular, Knockout
<i>Databases</i>	MSSQL, MySQL
<i>Source Control</i>	TFS, SVN, Git
<i>Software Engineering</i>	MVC, Dependency Injection, REST Web Services, Agile/SCRUM
<i>Practices and Methodologies</i>	
<i>Operating Systems</i>	Windows, Unix
<i>IDEs</i>	Visual Studio, MSSQL Management Studio, IntelliJ, Eclipse

Work Experience

Software Engineer *Feb 2016 to Oct 2016*

Hellenic Army Information Technology Support Centre (www.army.gr) – Athens, Greece

- Design and implement enhancements for a Document and HR Management web application, which was able to operate with thousands of documents every day.
- Reduce the response time of searching queries to pages which access database tables with a huge amount of data.
- Database administration and maintenance. Migrations and installations of databases to other servers.

Software Engineer *Jan 2015 to Oct 2015*

Communication & Information Technologies Experts S.A. (www.cite.gr) – Athens, Greece

- Design and implement new features to a scalable **n-tier** application for dynamic scheduling of shifts in companies with thousands of employees.
- Optimization of implemented web pages to increase the response time of the application.
- Design and implement scalable **n-tier** application for dynamic calculation of payrolls in large companies.
- Agile/SCRUM methodology in team meetings

Junior Software Engineer *Nov 2010 to Dec 2014*

Diadrasis & Co (www.diadrasis.net) – Athens, Greece

- Design and implement innovative mobile application for visualizing ancient areas with 3d representations in real time through the screen of a mobile device. The application is already being used from many public organizations for educational and cultural purposes.
- Design and implement a windows application for collecting profits for artists, from songs or movies that have been played in radio stations and TV. The application was able to compare lists with millions of songs with our customers' lists in a small amount of time.
- Consulted regularly with clients on bug fixes and enhancements for the applications.

Education and Training

2013 - 2015 **Master of Science in Computing Systems – 9.50 / 10.0**

University of Athens, Department of Informatics and Telecommunications, Greece

** Teaching Assistant in various courses of the undergraduate program of the university, in parallel with my studies for the Master degree. (Lab Instructor in the course "Introduction to Programming", Exercises Assistant in the course "System Programming")*

2008 - 2013 **Bachelor of Science, Computer Science – 7.85 / 10.0**

University of Athens, Department of Informatics and Telecommunications, Greece

(48 Courses – 242 ECTS Points)

Achievements and Awards

09 / 2016 Offer to work with **Amazon's Trans Tech** Team in Vancouver, Canada, after two rounds of interviews and one on-site interview. Turned down the offer due to personal issues.

Amazon Trans Tech Team, Vancouver, Canada

01 / 2016 Top GPA in Computing Systems Master's Degree

University of Athens, Department of Informatics and Telecommunications, Greece

01 / 2015 Top GPA between freshmen in Computing Systems Master's Degree. Scholarship for the second year of Master Degree

University of Athens, Department of Informatics and Telecommunications, Greece

General Skills

<i>Languages</i>	Greek (Native), English (Full professional proficiency)
<i>Other</i>	Sailing, Football, Guitar
<i>Driving License</i>	Full current clean driving license
